

## HCE Distributed Crawler service client setup

1) Download the DTS archive <http://packages.hierarchical-cluster-engine.com/src/hce-node-tests.zip>

2) Unzip to user's home directory

3) Run commands:

```
cd hce-node-tests  
chmod 777 usr/bin/hce-node-permissions.sh  
./usr/bin/hce-node-permissions.sh
```

4) Install dependencies libraries and packages for the Python language:

```
sudo apt-get install python-pip python-dev libffi-dev libxml2-dev libxslt1-dev  
sudo pip install scrapy pyzmq cement
```
